Year In Review

**NEHI Year In Review:
"It Takes Courage To
Change"**

Dear Members and Friends,

I'm pleased to announce some exciting new developments at NEHI in the New Year.

The first is our name: as of today, we have officially changed our name to **NEHI** and will no longer be known as the New England Healthcare Institute. We've also developed a new tagline, "the national network for health innovation." Both changes better reflect the national scope of our members, our work and our impact as we pursue our mission of advancing innovation in health care.

The third change is the inaugural publication of a **NEHI Year In Review**. Please take a look and learn more about our name change and what we've accomplished in 2010.

There will be other exciting developments at NEHI in the months ahead, including the launch of what will be an annual national health innovation forum and the opening of offices in Washington, DC and San Francisco, California.

Thank you for supporting NEHI and we look forward to working with you in the year ahead.

All the best,

Wendy Everett, ScD
President
